

Step 2

Place a 2 ½” square of dark fabric on one corner of a 3 ½” square of light fabric. Stitch on the diagonal of the dark square, as shown by the dotted line.

Flip the corner up to check your stitching. If it is correct, trim the excess, leaving ¼” for seam allowances. Press the seam allowances toward the dark fabric.

make 52

Repeat the above steps to make fifty-two units.

Use the fourteen 3 ½” x 12 ½” rectangles, the remaining twenty-eight 2 ½” squares of dark fabric, and the same sew and flip technique from above to make fourteen selections like the one shown below.
